Ogden, March 29 .- William Ward, a well known resident of North Ogden, aged 39, a son of Bishop James Ward, committed suicide some time early this morning by hanging himself in his barn. The unfortunate man lost his wife by death three years ago, which preyed on his mind until he lost his reason, and was not responsible for his actions, being under constant watcheare. He went to bed last night apparently well, but when his children arose this morning he was missing, and upon a search being made his dead body was found in the barn. He had got up in the night, slipped on his pants and went out in his bare feet without awaking anyone in the house and accomplished the rash act which has shocked the entire community. The sympathy of all goes out to the family. He is survived by three children. which preyed on his mind until he

JAPANESE IN HAWAII.

Gov. Carter Says There Has Been Big Increase in Attendance at Schools.

Washington, March 28 .- In his annual report to the secretary of the interior. G. R. Carter, governor of Hawait, calls attention to a marked falling off in the attendance of Hawalian and American children at the public schools and a corresponding increase in the attendance of Japanese children, but he does not hold the latter circumstance responsible for the

Japanese children, but he does not hold the latter circumstance responsible for the former.

Speaking of the Japanese he says:

"There is nothing to deplore in the increase of Japanese children. The Japanese are probably in large proportion to remain. Their natural increase has been very great and as eight years have elapsed since annexation, a large number of the Japanese children now crowding into our schools have been born under the American flag. When these reach muturity they will have the right of obtaining American citizenship, it is, therefore, important that they should have full opportunity of becoming quipped with the knowledge and habits of thought requisite to good American citizenship. Apart from that consideration it must be conceded that it is the inalienable privilege of every child under protection of the flag to enjoy the benefits of that public school system, which is one of the chief glories of the American commonwealth, and which mereover. Hawaii took as an ideal long before admission and continues, as a part of the Union, its best endeavors to maintain."
